

STARCHECKER

A POCKET SIZE INFRA-RED METER

•STARCHECKER – IR METER

Starchecker provides a reliable, fast and safe means of confirming the operation of an infra-red light source.

The unit is inexpensive, robust, versatile and sensitive in the infra-red band used by night vision goggles.

Starchecker is an essential tool for personnel involved in the maintenance and testing of IR lighting systems. The unit is a small, self contained, simple and robust instrument which gives an instant indication of IR emission day or night.
